GP CHAMP'S HEALTH DROP IN

Aged: 13-25

About the GP Champ's Health Drop In

The Health Drop In at YPAS is part of a National Pilot. It is a three year project funded by the Department of Health under its 'Innovations' scheme, run by two national charities – the Association for Young People's Health and Youth Access, along with the Royal College of GPs' Adolescent Health Group.

Why are we doing it?

- To identify significant public health concerns relating to adolescents
- Significant scope to improve understanding of young people's health needs
- To improve young people's health outcomes
- To inform the new commissioning process to ensure young people's health is prioritised

What it will do:

- Draw on the strengths of both GPs and the voluntary sector to improve access to health services for young people.
- Create a national network of GP Champions to link with new health structures and support the role of GPs in commissioning
- Transform the way public health services are delivered to young people – testing innovative ways of delivering services

Our aims:

- To work with 'hard-to-reach' young people
- To explore new ways of working between Brownlow Health , YPAS practice and other partner agencies
- To collect evidence of impact of the new ways of working (Routine Outcome Monitoring)
- To put the focus on young people's health needs and inform commissioning to find new ways of working between the GP practice and voluntary sector.
- To address local health needs and concerns of local young people

What do we offer?

- GP Consultation
- Youth Work Support
- Health Checks
- Sexual Health Advice
- Information
- Advice
- Guidance
- Referrals
- Signposting
- Support to specialist agencies.
