

Monday 4th February 2019

Dear Parents/Carers,

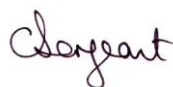

Maths has been a big area for development in school this year as we have begun the Singapore approach to the teaching of maths in years 1,2,3,4 and 5. We are working closely with Our Lady of Pity teaching school and all staff have had 3 days training in this new style of maths teaching. We had a coaching visit last week from a specialist teacher in Singapore maths and he was very impressed with the lessons that he saw.

We are therefore inviting parents to come and see their child's Singapore lesson next week so that you can see for yourself how well the children (and staff) are doing. **All lessons will take place between 9.15 am and 10.15 am across the week.**

EYFS would also like you to see how they are learning maths through play and year 6 would like parents to see how hard they are working in maths to prepare them for SATs and secondary school.

We have arranged for 3 opportunities for parents to watch their child's class doing their maths lesson. Please indicate on the acknowledgement slip below, the lesson that you would prefer to visit and we will try to accommodate you as best we can. Visits will be given on a first come first served basis. Your child's teacher will confirm your appointment.

Yours sincerely

Mrs C Sergeant
Headteacher

Child's name: _____ Class: _____

I would prefer the following day to visit my child's maths lesson

Tuesday 12th Feb 9.15am – 10.15am

Wednesday 13th Feb 9.15am -10.15am

Friday 15th Feb 9.15am-10.15am
