# Fluent in Five Questions and Answers

Year 4

Week 2

## Year 4 - Week 2

THIRD SPACE  
LEARNING

### This week in a nutshell:

This is the first week children will be exposed to Fluent in Five. They may therefore find it more challenging and you may want to introduce them to the questions with symbols first. This will show them whether to use mental or written methods for the calculation.

Mental methods this week focus on those which should be secure for Year 3, including:

- The three times tables
- Adding a three digit number and ones
- Finding unit fractions of number

Multiplication and division questions which may need to be supported with an informal written method or jottings are included, with the 3 times table as their base.

This week written addition questions include exchanging in one column only. For this week only, all questions are presented in the 'traditional' format of 'question = answer space'.
