# Parent and child online safety workshops

March 2023

Thankyou to all the parents who attended our online safety workshops.

The sessions dealt with the following areas;

- How to keep safe online -being "share aware"
- Age restrictions on the popular social media platforms eg Twitter, TICTOC etc
- How to protect your online profile and use privacy settings
- Cyber bullying and social media
- The positives and negatives of social media

We had 65 responses to our parental questionnaire following the sessions;

100% of parents felt the school taught their children how to keep safe online

86% of parents said their child uses the internet every day

83% of parents felt found the sessions to be useful/very useful

72% of parents said that they talk about online safety with their child a lot at home

100% of parents said they would like more help with setting Parental controls

NEXT STEPS:

Parents have asked for more sessions on

- parental controls especially on phones and iPads
- Identifying APPS that children are using regularly with the pros and cons of each app so parents can make informed decisions.
- Stranger danger online

A Y1 parent said "Thanks for all of your support the sessions were great! "
